- Keyboard and Mouse
- 5 Open USB ports
- High-Speed Internet Connection (Wireless Possible with Strong Signal)
- 5 - 120v Power Plugs

Hardware Supplied and Maintained by Settrax

- Logitech Webcam Model C615
- Zebra GX430t Label Printer (USB) with Starter rolls for Labels and Ink Ribbon
- Adams Equipment CPW+ Weight Scale (USB)
- VESA Mounts
- Stainless Steel Kiosk Structure and Table (36" and 46" options for a Stationary Table or opt for a Settrax Mobile Kiosk Cart)

Software & Security Considerations

Settrax is a cloud-based "Software as a Service (SaaS)." Our data is stored on a Secure Housing Platform using 256bit SSL encryption. Our software does not collect or store any Protected Health Information (PHI) as defined by HIPAA and the HITECH Act.

Internet Access Requirements

Settrax will require an internet connection to reach our servers. While hard-wired internet access is ideal, the use of wifi is possible if the location where the kiosk will be located has a strong wifi signal.
